EAST OF YPRES German Garrison Cut Off and Counter Attacks Are

FOG ON FRENCH CENTER

Teuton Movement Against Dixmude Thrown Back, Says Paris.

FRENCH OFFENSIVE CONTINUES

Air Scouts Active and Great Searchlights Sweep Battlefield at Night.

Special Cable to The Washington Herald. Paris, Nov. 2.- The allies on the offensive in the battle of Flanders, today firmestablished their line on the east front of Ypres from the River Lys to a point considerably north of Langemarck, which is five miles north of northeast of Ypres. This line is from Messines, past Ypres on the east, to north of Langemarck. When it is considered that the Ger-

mans now occupy Ypres and that great been driving at the French and British positions in the environs of the town in a gigantic effort to win through on the "march to Calais," the significance of this gain can be realized eartly,

Garrison Cut Off. The allies have cut off the German garon in Ypres from the main body operating toward it from the east, and they

have forced back this main body whose only hope was to maintain a violent riving hard on Ypres from the west, while to the south of Ypres, along the Menin road and along the plateau traversed by the high road from Ypees to Armentieres the allies still are carrying

violent counter attacks of fresh German army corps supported by the concentrated fire of massed German batteries. Flanders, where it delayed operations two days ago, now envelops the remainder of the battle front along the French left center and on the center, causing

Air Scouts Active. Rapid advance in the fighting in Flanmerical strength of the army is greatly superior to the other or the weight of to the other, those gyroscopes of modern warfare, the aerial scouts, maintain the or guns at any given point in ample time to permit an equal force to be brought up to meet it. Only by night can any great movement of troops from one section of the line to the other be attempted with any degree of safety from discovery, **CLAIMED BY BERLIN** and then it is all a matter of luck, for the great searchlights of the rival armies are sweeping the field almost constantly. In the light of these conditions the progress recorded by the French war
